Tools

Outbound

Apollo, Smartlead, PlusVibe, Instantly, Lemlist, Zapmail, InboxKit, Porkbun, Mailgun, Sales Navigator, Rocketreach, Dripify

CRM and ops

Pipedrive, HubSpot, GoHighLevel, Notion, Google Workspace, Fathom, Zapier, n8n, Hermes

Build

Claude Code, GitHub, Figma, HTML, CSS, JavaScript

Systems I build

Reply routing: booking to CRM lead to blocklist

Deliverability monitoring: mailbox health, warmup, bounce thresholds

Migration playbooks with reconciliation

Client system: profiles, daily logs, campaign tracking, Claude Code agents

Summary

I run cold email and outbound systems for founders and agencies: domains, mailboxes, warmup, deliverability, list building, campaign ops, reply handling and CRM hygiene. Every engagement gets a documented workflow and a daily log, so the client can see what ran and why. Four years of business and sales experience in total.

Recent projects

Satlas

2026

Cold email and lead generation agency, Australia

Own the sending infrastructure: 25 domains, 60 mailboxes, 180+ accounts. Daily inbox health and warmup checks, monthly deliverability audits, the Instantly to PlusVibe migration, Apollo lists, sequences and replies. White-labelled campaigns for the agency's clients.

PlusVibe · Apollo · Zapmail · InboxKit · Porkbun

Albert Scott

2026

Amazon marketplace growth agency, US

Reply pipeline on the agency's live Smartlead account: tagging against the agency's reply taxonomy, Pipedrive updates, booking routing, blocklists. Built the booking to CRM to blocklist automation.

Smartlead · Pipedrive · Calendly

MyCloudGCS

2026

Fintech for accounting firms, Orlando FL

Lead databases, CRM integrity and sales enablement across two founder-led products: ICP build, Apollo, HubSpot, Lemlist, LinkedIn, a Reddit engagement workflow, written pipeline reports.
